

## TECH HELP

Keyboard not working? Camera not turning on? Won't connect to the internet? Try a hard reset! For many Chromebook issues, a hard reset is the perfect fix.

### **To do a hard reset:**

- **Hold down the refresh button (top row of the keyboard, third from the left) and the power button until the power button stops flashing.**
- **Release the keys. Wait about thirty seconds and turn the Chromebook on.**

Your issue should be fixed. If not, bring the Chromebook to the school to swap for a new device.
