

In order to best support our LVMHS students in the beginning days of school, we want to communicate an important change for the 23-24 SY.

HCS Board of Education 6.311 Summary (full code in Parent Tab)

Cell Phone Use

K-8 No cell phones or personal communication devices during the school hours.

9-12 No cell phones or personal communication devices during the school hours. Individual schools are given the choice to allow 9-12 students to access cell phones or personal communication devices in a designated area during lunch. LVMHS will allow cell phones and communication devices for 9-12 students during the 30 minute lunch period in the lunch room only.

Cell phones or personal communication devices are defined as: cell phones, personal communication devices, and personal electronic devices including but not limited to wearable technology, such as eyeglasses, rings, ear buds, head phones or watches that have the capability to record, live stream, or interact with wireless technology.

K-12 students may possess devices so long as they are not seen or heard, and should be stored in back packs, purses, or assigned locker.

STUDENT EXCEPTIONS: Students are allowed to use devices if they have an IEP or 504 that supports the use for learning or health assistance. For example, a student with diabetes needing a cell phone to monitor a CGM for blood sugar monitors is a student exception.
